

MEET OUR TEAM

IRISH TOUCH PET GROOMING

MARY BRINEY

Hello, my name is Mary. I live in Chesterton, Indiana with my husband and two wonderful children. I grew up in Killarney Ireland and came here to visit family in 2011. During my visit I met and fell in love with my husband. I have always loved animals and found my passion in pet grooming and skin restoration. When i first started this career I loved making pets look cute and fluffy. Then I started noticing on a regular basis, animals with sick skin. They would have thinning hair, hair loss, red irregular skin, foul smells, and allergies. I than started to look to see if there anything I could do to help. I found a wonderful course that is science based and taught by a veterinarian licensed in Arizona. This course was very in-depth about the skin and hair on animals. As I started this course and got more into it my view on everything changed. I started helping animals in a different way using specific shampoos, conditioners and oils that help restore their skin. Having healthy skin their personalities became happier as their pain subsided. It is a truly an amazing thing to do. My main goal is to do what is best for your pet, humility over vanity. If they are older comfort over beauty. You family pets become a part of the Irish touch family. I hope to make a big impact in the small and charming town where my family and friends live.

KRISTYN MCCORMICK

Hello, my name is Kristyn McCormick, I have been in the grooming industry for the last 10 years, starting at the bottom as a receptionist, to a bather, and now an actual groomer. I was born, and raised on a farm, so my love and passion for animals comes from a very young age. I love being able to work with all sorts of dogs, and building a relationship with them. My number one thing that I love, is making sure every dog that I groom has a wonderful experience and they look forward to coming and getting pampered, and of course receiving all the extra love I can give to them while they are in my care! I've found my forever home, here at Irish touch pet grooming, and I look forward to seeing and meeting your fur babies every day!
